Compliance costs for affected persons:

This filing pertains to general provisions of DOPL and its licensees. The clarification and technical changes will have no cost or savings impact. Any cost or saving impact of new licensure regulation was addressed in the referenced legislation, or will be described in separate rule filings more fully implementing the new regulation, or both.

A) Comments by the department head on the fiscal impact the rule may have on businesses:

The amendments to R156-1 are proposed to: (1) carry out the mandate of H.B. 287 (2017), Cosmetology Licensing Act amendments, S.B. 74, Medical Interpreter Act amendments, H.B. 128, Health Care Debt Collection amendments, H.B. 142. Administration of Anesthesia amendments and H.B. 154, Telehealth amendments; (2) make clarifying revisions and (3) make technical revisions. The clarifying revisions and the technical revisions have no fiscal or non-fiscal impacts. The R156-1-308a(1) amendments establish two-year renewal cycles for licensing five new categories of licensees and changes the "CPA Firm" renewal date from September 30 to December 31. The new categories of licensees will have a renewal cycle similar to other licensees in the same field and there will be no adverse fiscal impact. The three-month change to the renewal cycle of CPA Firms will have a negligible impact, and only in the first year of the change. The R156-1-308a(2) amendments have no adverse fiscal impact by establishing a three-year license renewal cycle for certain medical language interpreters. The R156-1-308d amendments will have no adverse fiscal impact to small businesses by granting continuing education credit to certain licensees providing volunteer service. The R156-1-308f amendment clarifies that the concept of conditional licensure may include the license of an applicant that is pending the completion of an inspection, and will have no adverse fiscal impact to small businesses. The R156-1-501 amendment clarifies certain conduct as constituting unprofessional conduct, and will have no adverse fiscal impact to small businesses. The R156-1-502 amendment provides a two-tier fine schedule for violations of Subsection 58-1-508(2) and will impact only those health care providers that fail to follow certain health care claims practices. This would impact only violators and would not have an adverse fiscal impact on small business health care providers as a whole. The adoption of newly framed rules for providers of telehealth services under R156-1-601 will have no fiscal impact beyond the fiscal impact and analysis of the Legislature regarding H.B. 154 (2017) for providers offering telehealth services.

R156-1 General Rule of the Division of Occupational and Professional Licensing

Box 6 - Summary of the rule or change:

Subsection R156-1-102(1): This filing clarifies that a license that has been placed on probation subject to terms and conditions is not "active and in good standing."

Subsection R156-1-308a(1): First, this filing establishes two-year renewal dates for: (1) "hair designer", hair designer instructor", and "hair designer school license" classifications (H.B. 287); (2) "restricted associate osteopathic physician" license classification (H.B. 396); and (3) "restricted associate physician" license classifications (H.B. 396). Second, this filing changes the September 30 renewal dates for "CPA Firm" licensees and "Certified Public Accountant" licensees to December 31.

Subsection R156-1-308a(2): This filing establishes a three-year renewal cycle date for tier 1 certified medical language interpreters and tier 2 certified medical language interpreters. (S.B. 74).

Subsection R156-1-308d. This filing: (1) establishes the parameters within which the division will grant continuing education credit to a licensee for volunteering as a subject-matter expert in the development of exams; and (2) clarifies that under Section 58-13-3, a health care professional licensee may fulfill up to 15% of the licensee's continuing education requirements by providing volunteer services at a qualified location.

Section R156-1-308f: This filing clarifies that the concept of conditional licensure may include the license of an applicant that is pending the completion of an inspection.

Subsection R156-1-501: (1) In accordance with H.B. 128 (2017), this filing designates as unprofessional conduct failing as a health care provider to follow the health care claims practices of Section 31A-26-301.5(4), in violation of Section 58-1-508(2); and (2) In accordance with Subsection 26-59-104(1) enacted by H.B. 154 (2017), this filing designates as unprofessional conduct failing, as a provider offering telehealth services, to comply with any term, condition, or requirement contained in Section 26-60-103 or new Section R156-1-601.

Subsection R156-1-502: In accordance with H.B. 128 (2017), this filing establishes the following fine schedule for violating Section 58-1-508(2) (failing as a health care provider to follow the health care claims practices of Section 31A-26-301.5(4)): First offense \$250, second offense \$500.

Section R156-1-601: In accordance with Section 26-60-103 and Subsection 26-60-104(1) enacted by H.B. 154 (2017), the Division in collaboration with the Physicians Licensing Board proposes these amendments to clarify the standards required from a provider offering telehealth services, as follows: Subsection (1) incorporates certain definitions regarding telehealth from the Telehealth Act (Title 26, Chapter 60), and includes within the definition of "provider" an unlicensed individual who is required to be licensed, or who is exempt from licensure. Subsection (2) clarifies scope of practice, including requiring the provider to establish a provider-patient relationship. Subsection (3) requires the provider to obtain a patient's signed informed consent containing details and disclosures specific to telehealth services and technologies. Subsection (4) clarifies that treatment based solely on an online questionnaire does not constitute an acceptable standard of care. Subsection (5) clarifies that a provider may only issue prescription drug orders for a telehealth patient in compliance with Title 58, Chapter 82, Electronic Prescribing Act, and only after establishing a provider-patient relationship. Subsection (6) clarifies that a provider offering telehealth services must generate and maintain medical records for the patient in compliance with applicable state and federal laws, rules, and regulations, including HIPAA (Health Insurance Portability and Accountability Act) and HITECH (Health Information Technology for Economic and Clinical Health Act); and must make those medical records accessible to other providers and to the patient in accordance with applicable laws, rules, and regulations.

Box 7D Other Persons Costs/Savings:

This filing pertains to general provisions of DOPL and its licensees. The clarification and technical changes will have no cost or savings impact, because they only make formatting changes and add clarification to practices already taking place in the industry. Any cost or saving impact of new licensure regulation was addressed in the referenced legislation,

or will be described in separate rule filings more fully implementing the new regulation, or both.

Subsection R156-1-308d(1). Some savings to individual licensees may result from the proposed amendments to this Section, under which the Division clarifies how and when it may grant continuing education credit to a licensee for volunteering as a subject-matter expert in the development of exams. Licensees who choose to volunteer by serving as a subject matter expert may save on the cost of attendance at one or more continuing education courses. However, the amount of the savings cannot be estimated, as it will vary significantly from licensee to licensee depending on a number of widely ranging factors, such as the number and type of volunteer services provided, any individual ratios for service hours decided upon by the licensing board over the licensee's profession, and the number and type of credit hours required from the licensee to maintain that particular license.

Subsection R156-1-502: The Division estimates that there will be no cost or savings to other persons from these proposed amendments, over and above the impact from the underlying legislation, because the amendments establish a fine schedule for unprofessional conduct in accordance with H.B. 128 (2017). Costs or savings to other persons were included in the Legislature's consideration of H.B. 128, which determined that enactment of the legislation "could result in 24 licensees annually paying a \$500 fine for total costs of \$12,000". The fiscal analysis is available from the Utah State Legislature website at https://le.utah.gov/~2017/bills/static/HB0128.html. This conclusion is supported by the fact that any impact from these amendments cannot and should not be scaled to all other persons, as the fines will not affect the majority of those who meet the new professional standards and will never be fined. In other words, the impact of the fines will never be uniformly felt across the industry. Additionally, per the Division'sreview a licensee sanctioned for unprofessional conduct is unlikely to be fined again in succeeding years. In short, after conducting a thorough analysis, the Division has determined that these proposed amendments will not result in a measurable fiscal impact to other persons.

Section R156-1-601: These amendments define and clarify the standards required from a provider offering telehealth services under Title 58, in accordance with Section 26-60-103 and Subsection 26-60-104(1) enacted by H.B. 154 (2017). No additional costs or savings are anticipated to other persons from these proposed rules, as they merely clarify how existing health care standards and practices apply to a telehealth setting for Title 58 providers offering telehealth services, and allow the Division to enforce these standards for Title 58 providers, as required by the underlying legislation. Any additional costs or savings to other persons result from H.B. 154, and were included in the Legislature's consideration of this bill. A copy of this analyses is available from the Utah State Legislature website at https://le.utah.gov/~2017/bills/static/HB0154.html.
